

COMITÉ INTERNATIONAL CROIX-ROUGE

LE PRÉSIDENT

Geneva, November 27 th, 1962,

C.V. - 92

Mr. Secretary-General,

I beg to acknowledge the receipt of the "Memorandum for the Record", which Your Excellency had the kindness to send me through Ambassador Spinelli, Director of the European Office, received on November 15 th.

I wish to thank you for this document which you discussed, in draft form, with my colleague Mr. Ruegger, prior to his departure from New York on November 10 th.

The International Committee have taken note of the principles set down by you in paragraphs A and B of the Memorandum, which conform with the general principles of the Red Cross.

To His Excellency
U Thant
Acting Secretary-General
The United Nations Organization
New York N. Y.

With regard to paragraph C of the Memorandum, concerning more specifically the recent Cuban issue which, I feel, is now on the way to a final solution and therefore no longer actual from the International Committee's point of view, I can let you have, at a later date, if this should interest you and your services, a more detailed Memorandum setting out the steps we envisaged, at the time, with a view to the designation of a corps of inspectors to be put at your disposal.

This document raises a number of technical questions which would also have arisen if implementation of your request had been necessary. It also lays down the broad lines on which such an inspection should have been based.

I am sure that you will agree that our recent exchange of views have helped to set out some of the principles according to which our two organizations could co-operate in the event of a major crisis involving the threat of thermo nuclear warfare.

With my highest consideration, I am, Mr. Secretary-General,

Yours very faithfully,

Light Bour

Léopold BOISSIER
